Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: French . Brand New Book ***** Print on Demand *****. . . Entre l intelligence et le mecanisme brut il y a un intermediaire dont le role, selon nous, n a pas ete mis dans tout son jour: l appetit. L appetit, - comme la faim, la soif, le besoin de mouvement ou de repos, - est une impulsion accompagnee de peine ou de plaisir vague; c est bien, par consequent, un etat de conscience, sinon un acte d intelligence. Or l appetit se retrouve au fond de tout instinct, sous forme d un besoin demandant a se satisfaire. Quand le jeune ecoreuil, qui ne connait point encore l hiver, fait cependant d avance sa provision de noisettes, il ne se represente point le resultat de son acte, il n a ni l idee de l hiver, ni celle du froid, ni celle de la disette, il agit sans une intention preconcue; mais il agit cependant en vertu d une sorte de besoin, avec un certain plaisir a faire ce qu il fait. Si donc il n a pas conscience du but de ses actes, il a quelque conscience de ses actes eux-memes a mesure qu il les accomplit. De meme, quand l enfant mange, il ne se represente ni la digestion ni l assimilation, mais il a pourtant conscience du malaise de la faim et du plaisir qu il eprouve a manger.
