Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1906 edition. Excerpt: .and then it may be continued in five-minim doses three or four times daily for its alterative effect, unless debility is marked. Phytolacca is indicated specifically wherever the glands or glandular organs are involved. It is an active alterative and restorative in addition to its influence upon the functional action of all glandular structure. It is given conjointly with other indicated remedies. Podophyllin may be given in very small doses with phytolacca and also whenever the liver and spleen are involved. It should not be permitted to irritate the gastro-intestinal tract. Berberis aquifolium is a remedy of value as auxiliary to other measures when the skin is involved and when pimples, pustules, bullae, vesicles or skin abscesses appear as a result of the infection. This remedy is given to good advantage when so indicated with small doses of the carbonate of iron. Quinin should be...
