CYTOSKELETON

To download **Cytoskeleton** eBook, please follow the hyperlink beneath and download the file or gain access to additional information which might be have conjunction with CYTOSKELETON book.

Alphascript Publishing. Taschenbuch. Condition: Neu. Neuware - The cytoskeleton (also CSK) is a cellular 'scaffolding' or 'skeleton' contained within the cytoplasm that is made out of protein. The cytoskeleton is present in all cells; it was once thought this structure was unique to eukaryotes, but recent research has identified the prokaryotic cytoskeleton. It is a dynamic structure that maintains cell shape, protects the cell, enables cellular motion (using structures such as flagella, cilia and lamellipodia), and plays important roles in both intracellular transport (the movement of vesicles and organelles, for example) and cellular division. The concept and the term (cytosquelette, in French) was first introduced by French embryologist Paul Wintrebert in 1931. 80 pp. Englisch.
