## JOBS FOR YOUTH: JAPAN 2009 (PAPERBACK)

Organization for Economic Co-operation and Development (OECD), France, 2008. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Improving the performance of youth on the labour market is a crucial challenge in OECD countries facing persistent youth unemployment. As labour markets become more and more selective, a lack of relevant skills brings a higher risk of unemployment. Whatever the level of qualification, first experiences on the labour market have a profound influence on later working life. Getting off to a good start facilitates integration and lays the foundation for a good career, while a failure can be difficult to make up. Ensuring a good start will require co-ordinated policies to bring the education system closer to the labour market, to help disadvantaged young people to find a job or participate in a training course and to facilitate the hiring of young people by firms. OECD has launched a series of reports on the school-to-work transition process in sixteen countries including Japan. Each report contains a survey of the main barriers to employment for young people, an assessment of the adequacy and effectiveness of existing measures to improve the transition from school-to-work, and a set of policy recommendations for further action by the public authorities and social partners. This report is based on the proceedings of a seminar and is published in English only. However, a French translation of the summary and main recommendations has been included in this volume.
