Reviews

It in a single of the best pdf. Of course, it can be enjoy, still an amazing and interesting literature. I discovered this publication from my i and dad encouraged this pdf to learn.
(Baron Steuber)

TESLA EL MAGO DE LA ELECTRICIDAD

VEGUETA EDICIONES, 2018. Condition: Nuevo. Nikola Tesla fue el científico que más inventos llegó a crear en la historia de la humanidad. Nació a mediados del siglo XIX y, con su trabajo, ayudó a modernizar el mundo con muchísimos avances basados en la electricidad. ¡A él le debemos la luz de nuestras casas! Muchos de los progresos de los últimos 150 años se basan en sus inventos. No es casualidad, por ejemplo, que le hayan puesto su nombre a la marca de coches eléctricos más moderna de la actualidad. Tanto el registro de la narración como el estilo de las imágenes están adecuados a escolares con una franja de edad entre 8 y 11 años. El texto y las imágenes se aseguran de tratar temas didácticos transversales a los ámbitos de actividad del personaje, en especial aquellos relativos al mundo de la tecnología, de cara tanto a la lectura en familia como al uso en centros escolares y al refuerzo al programa educativo. Las páginas finales del libro contienen una biografía resumida del personaje y una cronología que lo enmarca en la evolución de su disciplina, entre otros personajes destacados.
