Kerman Bharucha, United States, 2015. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.(This book is an extract out of my earlier book Gifting Your Child: Math and Literacy from Infancy. If you have the earlier book, you do not need this one.) This book provides a comprehensive introduction to basic math and science that every child needs to know. Starting with fundamental ideas, the book covers various detailed concepts in arithmetic, algebra, geometry, coordinate geometry and general science. Garnering all this information from different books could prove to be problematic, but the information is all here, in this one book. All the topics are laid out in a logical progression in the table of contents, relieving the parent or guardian of the constant vexing question What math do I teach my child next ? A solid foundation in math is paramount to a good education for all children because it will increase their overall academic confidence, help them maintain interest in math later in life, and prepare them for most careers which require at least some math proficiency. This book will serve your child from Pre-K/K well into his 6th or 7th grade. Buy this book. It s on your side.
