# TOWARDS PREDICTIVE MODELS FOR E-LEARNING

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Building cost-effective technology-enhanced learning | Many organizations view e-learning as a useful organizational component to face current competitive challenges. However, results have not shown up the expected benefits. This research aims at identifying alternative ways to promote learning-centred design, in order to build more cost-effective and satisfying technology-enhanced learning experiences. Though further research is needed to confirm results, this exploratory research sheds some light on this issue by means of using a...
