

Digestive Surgery

By Iacono / Takaori

Condition: New. Publisher/Verlag: Karger | Official Organ of European Digestive Surgery (EDS) | This publication provides answers on selected current topics of significant clinical interest in pancreatic surgery. Topics discussed include new fluid-collection definitions in the management of acute pancreatitis; the role of C-reactive protein to predict the occurrence of surgical site infection following pancreaticoduodenectomy; and outcomes of minimally invasive pancreatic surgery. This is followed by a detailed description of pancreatic surgical technique variations/approaches. The role of total pancreatectomy is also looked at in depth, as is the management of locally advanced pancreatic ductal adenocarcinoma. Initiated by the International Association of Surgeons, Gastroenterologists and Oncologists (IASGO), this publication brings together an international panel of experts who have contributed both original and review papers that are of special interest to clinicians. | Format: Paperback | Language/Sprache: english | 398 gr | 322x225x9 mm | 110 pp.

Reviews

This is the best book i have read until now. It can be filled with knowledge and wisdom Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Nadia Konopelski**

The publication is great and fantastic. Sure, it is enjoy, nevertheless an interesting and amazing literature. You will not truly feel monotony at at any moment of your own time (that's what catalogues are for concerning when you request me).
