## SUBOPTIMAL CONTROLLERS FOR REDUCTION OF VIBRATION AND SOUND RADIATION

Suboptimal Controllers For  
Reduction Of Vibration And  
Sound Radiation

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Vibration control of flexible structures is an important issue in many engineering applications. As large lightweight structures used in the aeronautical and space fields are characterized by modal frequencies and damping ratios relatively low, they are widely affected by vibrations that may cause problems both in terms of safety and comfort. Structural vibration can cause structure-borne noise to the structure, which is especially critical to aerospace structure and underwater vehicle such as...
