Excerpt: . . . keep a careful record of the operation. This was my method, and I aimed always at improving the quality; so soon as I found the quality diminished, I considered it time to stop, while so long as the quality improved, I thought it safe to advance. Consider each variety a separate subject for experiment, it will not do to trust to surmises and guess work, nor can any rule be given that will apply to all varieties alike. So far I have spoken mostly of the Labruscas and their hybrids. When we come to the cestivalis class we have entirely different material to deal with, and while we may, and can, by judicious Gallizing, improve some of them, and make them smoother and more palatable, yet with those which are used chiefly for medical purposes as Nortons Virginia, which has become a great remedy for dysentery, bowel complaints, and cholera infantum, it...
