

## Preparing for Future Products of Biotechnology (Paperback)

By National Academies of Sciences Engineering and Medicine, Division on Earth and Life Sciences, Board on Chemical Sciences and Technology

National Academies Press, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. Between 1973 and 2016, the ways to manipulate DNA to endow new characteristics in an organism (that is, biotechnology) have advanced, enabling the development of products that were not previously possible. What will the likely future products of biotechnology be over the next 5a 10 years? What scientific capabilities, tools, and/or expertise may be needed by the regulatory agencies to ensure they make efficient and sound evaluations of the likely future products of biotechnology? Preparing for Future Products of Biotechnology analyzes the future landscape of biotechnology products and seeks to inform forthcoming policy making. This report identifies potential new risks and frameworks for risk assessment and areas in which the risks or lack of risks relating to the products of biotechnology are well understood.
