This example is abnormal in point of stoutness, for, to have been normal with this circumference, length of fins and very great weight, the width of head should have exceeded 5 ft. and the length of body should have exceeded 16 ft. The mouth and teeth were also abnormally large for this short length. It is probable that within two weeks this large shark had eaten from my nets more than 50 sharks of about 6 ft. in length, leaving only their heads gilled in the net; and, with at least half a dozen species to select from, it was always her own species which she selected. At the time of her capture she had just eaten four of her species from my net, two of which had been swallowed whole, except...
