WANDL THE INVADER (PAPERBACK)

Createspace Independent Publishing Platform, 2016. Paperback. Condition: New. Language: English. Brand New Book ***** Print on Demand *****. There were nine major planets in the Solar System, and it was within their boundaries that man first set up interplanetary commerce and began trading with the ancient Martian civilization. And then they discovered a tenth planet -- a maverick! This tenth world, if it had an orbit, had a strange one, for it was heading inwards from interstellar space, heading close to the Earth-Mars spaceways, upsetting astronautic calculations and raising turmoil on the two inhabited worlds. But even so none suspected then just how much trouble this new world would make. For it was WANDL THE INVADER and it was no barren planetoid. It was a manned world, manned by minds and monsters and traveling into our system with a purpose beyond that of astronomical accident! Ray Cummings (Raymond King Cummings) was an author of Science Fiction, rated one of the founding fathers of the Science Fiction pulp genre. He was born August 30, 1887 in New York and died January 23, 1957 in Mount Vernon. Cummings worked with Thomas Edison as a personal assistant and technical writer from 1914 to 1919. His most highly regarded work was the novel The Girl in the Golden Atom published in 1922. His career resulted in some 750 novels and short stories, using also the pen names Ray King, Gabrielle Cummings, and Gabriel Wilson. Source: Wikipedia.
