ARE Press, United States, 2007. Paperback. Book Condition: New. 203 x 137 mm. Language: English . Brand New Book. Science caught up with the psychic readings of Edgar Cayce when it proved that all of materiality - consisting of atoms and, therefore, protons, neutrons and electrons - is energy in motion. Everything is a vibration. Even the body s five senses operate through the use of vibrations.The Cayce readings suggested that vibrations were, also, associated with healing, consciousness and even locations. In fact, the Cayce information presents the premise that all of life in every dimension is actually just different manifestations of the One Force - the Force that moved all of Creation into being. Therefore, all vibration is ultimately that One Force manifesting in the material world in a variety of ways. Todeschi s latest title explores how everything from consciousness to the material is connected to vibration and how we continue to create and shape our world through the vibrations all around us. Vibrations are essentially spirit in motion and our thoughts and actions affect our life and the way we are living.
