Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Practical Physiology of Plants: With Illustrations In 1883 one of us began a course of instruction in the physiology of plants, of which the chief feature was the demonstration of experiments in the lecture-room. Some years later a different arrangement was made, the students were required to perform the experiments for themselves; and at the same time laboratory work in the chemistry of metabolism was organised by one of us. To enable the students to carry out their work, written instructions were needed, and the present book is the result of an extension and elaboration of what we prepared for our, classes. The book makes no pretence to completeness, it contains merely such a selection of experimental and analytical work as seems to us suitable for botanical students. Part I, which deals with general physiology, is necessarily of a somewhat more elementary character than Part II, which treats a particular department of physiology in a more special manner, and presupposes a greater amount of knowledge on the part of the student. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
