

Mass Appraisal Methods: An International Perspective for Property Valuers (Hardback)

By -

John Wiley and Sons Ltd, United Kingdom, 2008. Hardback. Condition: New. 1. Auflage. Language: English . Brand New Book. This book takes a cross-disciplinary and cross-cultural look at mass appraisal expertise for property valuation in different market conditions, and offers some cutting-edge approaches. The editors establish an international platform and present the scientific debate as well as practical feasibility considerations. Heretic and orthodox valuation methods are assessed based on specific criteria, partly technical and partly institutional. Methodological evaluation is approached using two types of criteria: operational concerns about how to determine property value differentials between spatial and functional units of real estate in a valid and reliable way (technical criteria); and the kind of market circumstances being operated in (institutional criteria). While technical criteria are relatively well-researched, there is little theoretically informed work on the connection between country context and selection of property appraisal methods. The book starts with an examination of current mass property appraisal practices, presenting case studies from widely differing markets - from the American and Dutch, where regression-based methods have been used successfully for some time; to the Eastern European and other emerging economies, where limitations have to be compensated by focusing on the modelling...
