

## Compliance and Functional Testing of IEEE 1451.1 for Ncap-To-Ncap Communications in a Sensor Network

Filesize: 6.73 MB

### **Reviews**

*This sort of pdf is everything and got me to searching forward and a lot more. Of course, it is engage in, nevertheless an interesting and amazing literature. I realized this ebook from my i and dad encouraged this book to find out.

## COMPLIANCE AND FUNCTIONAL TESTING OF IEEE 1451.1 FOR NCAP-TO-NCAP COMMUNICATIONS IN A SENSOR NETWORK

To get **Compliance and Functional Testing of IEEE 1451.1 for Ncap-To-Ncap Communications in a Sensor Network** eBook, remember to click the button beneath and download the document or have accessibility to additional information that are relevant to COMPLIANCE AND FUNCTIONAL TESTING OF IEEE 1451.1 FOR NCAP-TO-NCAP COMMUNICATIONS IN A SENSOR NETWORK ebook.

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 32 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Distributed control in a networked environment is an irreplaceable feature in systems with remote sensors and actuators. Although distributed control was not originally designed to be networked, usage of off-the-shelf networking technologies has become so prevalent that control systems are desired to have access mechanisms similar to computer networks. However, proprietary transducer interfaces for network communications and distributed control overwhelmingly dominate this industry. Unless the lack of compatibility and interoperability among transducers is resolved, the mature level of access (that computer networking can deliver) will not be achieved in such networked distributed control systems. Standardization of networked transducer interfaces will enable devices from different manufacturers to talk to each other and ensure their plug-and-play capability. One such standard is the suite of IEEE 1451 for sensor network communication and transducer interfaces. The suite not only provides a standard interface for smart transducers, but also outlines the connection of an NCAP (network capable application processor) and transducers (through a transducer interface module TIM). This paper presents the design of the compliance testing of IEEE 1451. 1 (referred to as Dot1) compatible NCAP-to-NCAP communications on a link-layer independent medium. The paper also represents the first demonstration of NCAP-to-NCAP communications with Dot1 compatibility: a tester NCAP and an NCAP under test (NUT). This item ships from La Vergne, TN. Paperback.
