Brand New Book ***** Print on Demand *****.When the news came out that the high-performing hedge fund Mike and Laura Sudbury had created 10 years ago was in fact a Ponzi scheme, everyone had a lot to say - especially as it only came to light because Mike and Laura were found crushed to death by their garage door. But when Ty proves to be an unreliable witness and none of the medical professionals believe him, the crown drops the investigation and his parents place him in a private medical institute. 10 years later however and everything that Ty had said about his parents is proven right, in shocking detail. Holmes, so proud of his reputation for doing right by the world since he left his previous life to work for FPH, is faced with the realisation that he has caused unmeasurable trauma to Ty Sudbury by not believing him before...
