Cornell University Press, United States, 1988. Paperback. Condition: New. Reprint. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.In this provocative interdisciplinary essay, Joan B. Landes examines the impact on women of the emergence of a new, bourgeois organization of public life in the eighteenth century. She focuses on France, contrasting the role and representation of women under the Old Regime with their status during and after the Revolution. Basing her work on a wide reading of current historical scholarship, Landes draws on the work of Habermas and his followers, as well as on recent theories of representation, to re-create public-sphere theory from a feminist point of view. Within the extremely personal and patriarchal political culture of Old Regime France, elite women wielded surprising influence and power, both in the court and in salons. Urban women of the artisanal class often worked side by side with men and participated in many public functions. The formal adoption of universal rights actually silenced public women by emphasizing bourgeois conceptions of domestic virtue. In the first part of this book, Landes links the change in women's roles to a shift in systems of cultural representation. Under the absolute monarchy of the Old Regime, political culture was represented by the personalized iconic imagery of the father/king. This imagery gave way in bourgeois thought to a more symbolic system of representation based on speech, writing, and the law. Landes traces this change through the art and writing of the period. Using the works of Rousseau and Montesquieu as examples of the passage to the bourgeois theory of the public sphere, she shows how such concepts as universal reason, law, and nature were rooted in...
