

The SMS Nativity Story (Paperback)

By Hope Harris

Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This is very much a tongue in cheek book, written for those who like a modern approach to the nativity story, from a textese and acronym perspective. Mobile phones and e-mails seem to be so important to people now and this book is a reflection of the importance of them within the spirit of celebrating Christmas. Written in poetry, this book aims to lighten up the Christmas period with humour and joviality. Naturally, as this is a book that would appeal to any person in the family, any potentially offensive acronyms have not been included, and this book should therefore be suitable for older children and for adults alike. Adults may like to read through it first to check, if they have any particular sensitivities, or if following a very traditional approach. MGBWU (May God Be With You)! May this Christmas be a special one!
