Reviews

*This composed pdf is fantastic. It normally will not expense too much. You will like how the writer write this publication.
(Dr. Jerald Hansen)*

MATH FIN LAW 8: MATHEMATICAL FINANCIAL LAWSPUBLIC LISTED FIRM RULE NO. 23238-30330 (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Financial Accounting should be Accountable! No more bad Math in Finance! Finance is a very serious matter that needs more Mathematical Skills of Accountant and Finance Analysts. Any number should be welcomed in mathematicized modern Algebra of Share Holder s Meeting as Corporate Governance (GCG) based on Financial Healthiness, thru its Management Information System (MIS), optimizing the Financial Engineering Construction Syntheses (more then just Analyses), in good Finance Architecture of the globally Standardized Chart of Account (CoA) of International Finance Reporting System (IFRS) and US-GAAP (Generally Accepted Accounting Principles) to be coherence with advancement of the Du Pont and Limlingan s Algebra, enriching the Pacioli s Summa Mathematica Arithmetica Accountancy! The nicest thing about it, is that only requires simple Junior Highschool Algebra. We just need to be consistent with its less number treatment of constellations. Its saddest part is that many professors and doctors are no longer able to understand Junior Highschool Algebra, and hiding in Accounting jargons. Please go back to its Introduction for glossary, at anywhere inside the book, so then we can still understand what are those mean with simple Algebraic Rule there. We try to avoid some sentences multiplied, added, eliminated divided, rooted or powered by another sentences, that make many traditional finance book successful (delivering few simple things, seen as difficult and scary), but less useful and seldom be accurate.
