Oxford University Press, USA, United States, 2015. Paperback. Book Condition: New. Revised, Updated. 213 x 137 mm. Language: English . Brand New Book. Insecure Gulf examines how the concept of Arabian/Persian Gulf security is evolving in response to new challenges that are increasingly non-military and longer-term. Food, water and energy security, managing and mitigating the impact of environmental degradation and climate change, addressing demographic pressures and the youth bulge and reformulating structural economic deficiencies, in addition to dealing with the fallout from progressive state failure in Yemen, require a broad, global and multi-dimensional approach to Gulf security. While traditional threats from Iraq, Iran, nuclear proliferation and trans-national terrorism remain robust, these new challenges to Gulf security have the potential to strike at the heart of the social contract and redistributive mechanisms that bind state and society in the Arab oil monarchies. Insecure Gulf explores the relationship between traditional and new security challenges and situates them within the changing political economy of the GCC states as they move toward post-oil structures of governance. It describes how regimes are anticipating and reacting to the shifting security paradigm, and contextualizes these changes within the broader political, economic, social and demographic framework. It also argues that a holistic approach to security is necessary for regimes to renew their sources of legitimacy in a globalizing world.
