Current Management in Child Neurology (Hardback)

By -

PMPH-USA Limited, United States, 2008. Hardback. Condition: New. 4th Revised edition. Language: English . Brand New Book. One in ten children seen in primary care practice and 25 of hospitalized children appear with a neurologic complaint. The fourth edition of Current Management in Child Neurology provides succinct reviews in the form of superb how-to chapters on the most common neurological complaints and pathologic conditions seen in pediatric practice. This volume provides clinicians with a state-of-the-art toolbox for diagnosis and treatment of the most commonly presented neurologic disorders and dysfunctions in children, including headache, seizures and epilepsy, neurobehavioral disorders, school readiness, developmental delay, trauma, meningitis and encephalitis, injury to the preterm and term brains, and status epilepticus. Chapters new to the 4th edition include information on a range of other conditions such as microcephaly, neurodegenerative disorders, chromosomal disorders, epilepsy in adolescence, epileptic encephalopathy, pediatric neurotransmitter disorders, and tropical child neurology as well as current approaches to neonatal or infantile facial dysmorphism and congenital muscular dystrophies. The 4th edition of Current Management in Child Neurology has 111 chapters organized into three sections: Clinical Practice Trends, The Office Visit, and The Hospitalized Child. Each of the sections contains carefully selected readings and Web resources for...
