

Statistical Physics, Optimization, Inference and Message-Passing Algorithms: Lecture Notes of the Les Houches School of Physics: Special Issue, October 2013

By Florent Krzakala, Federico Ricci-Tersenghi, Lenka Zdeborova, Riccardo Zecchina, Eric W. Tramel

Oxford University Press. Hardback. Book Condition: new. BRAND NEW, Statistical Physics, Optimization, Inference and Message-Passing Algorithms: Lecture Notes of the Les Houches School of Physics: Special Issue, October 2013, Florent Krzakala, Federico Ricci-Tersenghi, Lenka Zdeborova, Riccardo Zecchina, Eric W. Tramel, In the last decade, there have been an increasing convergence of interest and methods between theoretical physics and fields as diverse as probability, machine learning, optimization and compressed sensing. In particular, many theoretical and applied works in statistical physics and computer science have relied on the use of message passing algorithms and their connection to statistical physics of spin glasses. The aim of this book, especially adapted to PhD students, post-docs, and young researchers, is to present the background necessary for entering this fast developing field.

Reviews

This ebook may be worth a read, and far better than other. It is among the most incredible ebook i have read. You will like the way the article writer publish this publication.

-- **Candace Raynor**

The very best book i actually study. It is actually writer in easy terms and never hard to understand. Your daily life period will probably be enhance when you total looking over this publication.
