

## Lecture Notes on Physics

Filesize: 5.01 MB

### ***Reviews***

*This published pdf is wonderful. it was writtern really completely and valuable. I found out this book from my dad and i recommended this pdf to find out.*

*(Dr. Bryon Gleichner)*

## LECTURE NOTES ON PHYSICS

To read **Lecture Notes on Physics** PDF, make sure you click the button under and download the ebook or have accessibility to other information which might be highly relevant to LECTURE NOTES ON PHYSICS ebook.

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1875 Excerpt: .movement reaches either end. Here, as in the case of longitudinal displacements, stationary vibrations can only occur when the length of the string is some whole number of half wave lengths, or an even number of quarter wave lengths. If  $n$  = the number of segments into which a cord divides, the length of the cord is  $n$  times the length of one segment. Laws of vibration of cords illustrated by the sonometer. 351. Vibrations of Plates.--Chladni's experiments. INTERFERENCE OF VIBRATIONS. 352. Two Equal Vibrations.--The general principle of interference is, that when a vibrating particle is actuated at the same time by two or more systems of vibrations, its actual motion will be the resultant of the motions due to each of the systems. In the case of two sounds of the same pitch traveling in the same direction, the motion of a given particle may be the sum of the motions due to the two sounds, or it may be their difference. In the former case the sound is increased. In the latter it is diminished, and may be completely destroyed. Interference produced by two tuning forks in unison. Interference of two organ pipes of the same pitch. Interference produced by dividing a wave and causing one-half to travel a greater distance than the other. Interference of the waves produced by a tuning fork; one from between and the other from outside the prongs. 353. Interference by Reflection.--The interference of direct and reflected waves in producing stationary vibrations has already been treated. 354....
