Paperback. Condition: New. 81 pages. Quick Guide - How to lose fat and shape your body The book is about losing body fat and transforming your body. It is a proven concept and worked very well for me and will work for you as well. It is not a 300 page book that explains the whole human biochemistry and gives you hundreds of cooking recipes. It is not an book that shows you how to lose 25 pounds in 7 days. In fact it has only about 70 pages and will teach you the basics. That is all you will need to be succesful. There are a lot of books on diet and fat loss on the internet and in bookstores. And some of them are really good, some of them are crap, but most of the times they have too much information to deal with. My book will give you the very basic rules and guidelines to reach your target in losing body fat, but maintain or even build up muscles. The book is easy and quick to read and to understand. This book is written for the average person, that has an 8 hours job, family and other tasks to fullfill. There are enough other books, that make losing fat and sticking to your diet an impossible mission, because it will take you more time or money then what you can invest. The book is not full of scientific studies or complicated rules. It will show you in a simple and understandable language what will help you lose weight and become healthier. An online forum and a blog provides you with the opportunity to discuss diet and training topics with other readers and the author. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN...
