The Secret of WritingIt's misleading to think of writers as special creatures, word sorcerers who possess some sort of magic knowledge hidden from everyone else. Writers are ordinary people who like to write. They feel the urge to write, and scratch that itch every chance they have. Writers get their ideas down on paper using particular strategies that seem to work for them. These strategies are available to anyone who wants to be a writer. Revealed!There is no secret. But there is a process. If you like to write, there are definite steps you can take to help you reach your goals. Good writing isn't forged by magic or hatched out of thin air. Good writing happens when human beings follow particular steps to take control of their sentences-to make their words do what they want them to do.This book will show you how writers work, how you can become a writer, and how you can find a process that works for you.
