Beacon Press, United States, 2010. Paperback. Book Condition: New. 213 x 140 mm. Language: English . Brand New Book. Increasingly, the media report on melting ice caps and drowning polar bears, but Seidl brings the message of global warming much closer to home by considering how climate change has altered her local experience, and the traditions and lifestyles of her neighbors, from syrup producers to apple farmers. In Vermont, she finds residents using nineteenth-century practices to deal with perhaps the most destructive twenty-first-century phenomenon. Seidl's poignant writing and scientific observations will cause readers to look at their local climate anew, and consider how they and their neighbors have adjusted to the...
