Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Joseph Dalton Hooker Sir Joseph Hooker was by general consent held to be the leading botanist of his age. That age witnessed the greatest revolution of all time in biological thought. It was the period when evolution was born, and Hooker assisted at the birth. It was then that the belief in fixity of species was shaken, and finally overthrown: in its place came a belief in the mutability of species, and the genesis of new forms. The change touched religious and philosophical thought profoundly, and has led to a wholly altered outlook on life. By right therefore Sir Joseph Hooker takes his place among the Pioneers of Progress He should stand in history at the right hand of Darwin, as he actually did in fact throughout the period while the Origin of Species was in preparation. But before the story of his life is told, a brief historical sketch may help the reader to understand the part which he played in the great drama.
