Christian Publishing House, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Technological and societal change is all around us. What does the future hold? Trying to predict the future is difficult, but we can get a clue from the social and technological trends in our society. The chapters in this book provide a framework as Christians explore the uncharted territory in our world of technology and social change. Some of the questions that Anderson will answer are: What are the technological challenges of the 21st century? How should we think about the new philosophies like transhumanism? Should we be concerned about big data? What about our privacy in a world where government and corporations have some much information about us? How should we think about a world experiencing exponential growth in data and knowledge? What social trends are affecting baby boomers, baby busters, and millennials?.
