

Indigenous Knowledge of Farming in North India

By Dr K.M. Sreekumar, Dr C. Thamban, and Dr M. Govindan

Foundation Books in association with Centre for Environment Education, New Delhi, India. Paperback. Book Condition: New. First Edition. It is now widely recognised that agriculture can benefit when indigenous technical knowledge of farmers or ITK is reclaimed and integrated with modern farming practices. ITK is derived from local culture, traditions and long-term human interaction with the environment. It needs both documentation and conscious promotion for a more sustainability oriented perspective in agriculture. The book aims to document ITK in agriculture by detailing rituals and practices followed in the cultivation of the main crops in the North Malabar region of Kerala. Contents Foreword Preface Acknowledgements List of Photographs and Illustrations List of Tables List of Plants Introduction Agricultural Scenario in North Malabar Farming Related Rituals Rice Coconut Arecanut Black Pepper Cashew Fruit Crops Wild Fruits Rubber Spices Tuber Crops Vegetable Crops Natural Resource Management. Printed Pages: 175.

Reviews

Simply no phrases to clarify. It is really basic but surprises from the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Mr. Noah Cummerata IV**

This book is definitely worth acquiring. Yes, it is enjoy, still an amazing and interesting literature. Its been written in an remarkably basic way and is particularly simply soon after i finished reading through this pdf where actually changed me, affect the way in my opinion.
