

Monthly notices of the Royal Astronomical Society Volume . 54

Filesize: 7.11 MB

Reviews

It in a of the best ebook. It is one of the most incredible pdf i actually have go through. I am just easily will get a satisfaction of looking at a composed book.

(Elisha McCullough)

MONTHLY NOTICES OF THE ROYAL ASTRONOMICAL SOCIETY VOLUME . 54

DOWNLOAD

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 216 pages. Dimensions: 9.7in. x 7.4in. x 0.5in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1894 Excerpt: . . . other radius OB of the same length as OA will be divided uniformly into a smaller number of parts. For Fig. 6. convenience new perpendiculars may be drawn at any other radius 00, OD, and c. Let us call a circular sector so divided a reducing scale. Thus if FGH (tig. 6) be again our T square, and a reducing scale OAE be pivoted at O on the edge FK, then the maximum ordinate OB can be divided into any arbitrary number of parts p by rotating the reducing scale. Let us now cut out of card a single tine curve VAR, which may be slid beneath the arm FK of the T square, the edge WX of the card bearing against the T of the square. Then the ordinate OP will be p sin (P a), as before, if the index be adjusted so that (P a), and not a simply, be read off on tho sliding scale. 12. So long, however, as we use a slide for setting in R. A. we get the sine curve entering into the machine. If the R. A. is to be set off on a uniform scale--which is practically a necessity if we are to form the sum (P4) mechanically--we are limited to two methods--those of translation and of rotation. It is curious that I should have dwelt so long upon the slide for R. A. , for the graduated circle is obviously more appropriate. But one...
