Norton, Esq., in Farmington. Prof. Norton was appointed, a few years since, by the corporation of Yale College, to a new professorship, that of Chemistry applied to agriculture and the phenomena of vegetable and animal life. At two different periods, he passed nearly three years in Europe, under eminent professors, and was diligently engaged in preparing himself for the duties of his appointment. Returning in 1847, he began his courses of both theoretical and experimental instruction. A respectable class of diligent and interested pupils was soon gathered around him, and has been continued and increased in all the successive years.
