Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Students Histology: A Course of Normal Histology for Student s and Practitioners of Medicine This volume has been prepared with a view of aiding the instructors and students of the laboratory classes which are under my direction. It is also presented with the hope that it may be useful to other instructors. Again, students often wish to continue microscopical work during the interim of college attendance; to such, it is my belief, these pages will have some value. Still again, very many practitioners, not having had, during pupilage, advantages equal to those provided by the modern laboratory equipment, wish to acquire more knowledge of microscopy, for its value in practical medicine. To such workers, also, I desire to be useful. So much technique has been introduced as has been found to be of absolute necessity, and no more. The processes for the preparation and exhibition of tissues are generally simple and always practicable. In the description of organs, I assume that the student has a fair knowledge of gross anatomy, but knows nothing of histology. The scheme or plan of the structure is first described - using diagrams where requisite to clearness - after which the mode of preparing the sections is indicated, and, under practical demonstration, every hematological detail tabulated in proper order. The drawings will, I believe, aid in the recognition of such elements in the field of the microscope. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in...
