## THE VOCATIONAL 11TH FIVE-YEAR PLAN TEXTBOOK: ELECTRONIC TECHNOLOGY(CHINESE EDITION)

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pub Date: 2009 Pages: 264 Language: Chinese Publisher: Jilin University Press Electronic Technology of 17 chapters. two parts of the analog electronic technology and digital electronic technology. The analog electronic technologies. including semiconductor diode semiconductor transistor amplifier circuit. the negative feedback amplifier circuit 'integrated operational amplifier and its applications. power amplifier circuit. sine wave oscillator and tributaries regulated power supply of a total of eight chapters. Digital electronic technology portion includes a digital circuit. the logic function of its simplification. generated in the logic gate circuit. a combinational logic circuit. triggers the sequential logic circuit. the pulse shaping and digital-to-analog and digital-to-analog converter. a memory. and programmable device of nine chapter. Moreover. each chapter Summary and Questions. Contents: Chapter semiconductor diode on analog electronic technology and its application of section I of semiconductor devices and their characteristics section II. section III of the semiconductor diode special diode Section IV single-phase rectifier filter circuit thinking about the title second semiconductor transistor and its the amplification circuit first section the semiconductor transistor Section II triode basic amplification circuit of the third quarter the voltage divider bias voltage amplification circuit the fourth quarter common collector and common base polar amplification circuit Section V multi-stage amplifier circuit Section VI amplifier circuit Frequency response thinking the title Chapter FET and its basic amplifier circuit first section JFET insulated gate FET third FET amplifier circuit thinking the title Chapter negative feedback amplifier circuit first in section II Section III of Section II of the basic concepts of section feedback type of feedback and discriminant negative feedback amplifier circuit performance the fourth quarter the depth of the negative feedback amplifier circuit section V of the...
