

Know Your Times Tables!: Practice Multiplication Tables from 0x0 to 10x10. (Paperback)

By Andrew Ashcroft

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This is a simple book of lists for a child to train with. There are no distracting pictures or complicated puzzles. It is intended to complement teaching which should begin at a concrete level so that the child understands what multiplication is about and for. A thorough knowledge of multiplication tables makes it easier for a child to understand later Mathematics where this knowledge is intrinsic to success. From working with multiplication, teaching in school often moves to division, fractions, area, volume and equations amongst other concepts. Children can feel very stressed if they are not equipped with a sound knowledge of the multiplication tables. This book gives a structure to learning. Many children have enjoyed the rhymes and rhythms of verses, poems and songs learned earlier on and being able to recite multiplication tables builds partly on these experiences. Mathematics should be multi-sensory. Seeing and reciting aloud are two of these elements. Discussion is important too. One can also look at the number-patterns in the lists or ask questions about them. Have little quizzes or ask questions in an everyday context,...
