Brand New Book ***** Print on Demand *****.*Includes pictures *Includes accounts of the fighting *Includes online resources and a bibliography for further reading The first aircraft to appear in the skies over the battlefields of World War I showed few signs of the dominant future of airplanes in warfare. Small, fragile, and slow, they provided no hint of the sleek jet fighters that would one day slash across the skies of Earth faster than sound to unleash the lethal blast and fire of sophisticated missiles, or the bombers able to level an entire city with one nuclear bomb. That said, they did not represent a complete novelty in warfare either, at least not during the early months of World War I. While airplanes had never before appeared above the field of war, other aerial vehicles had already been in use for decades, and balloons had carried soldiers above the landscape for centuries to provide a high observation point superior to most geological features. The French used a balloon for this purpose at the Battle of Fleurus in 1794, and by the American Civil War, military hydrogen balloons...
