# EVOLUTION AND DIVERSIFICATION OF LAND PLANTS

Book Condition: New. Publisher/Verlag: Springer, Berlin | A modern approach to understanding the evolution and diversification of land plants, one of the most exciting areas of plant systematics. It consists of three sections - origin and diversification of primitive land plants; origin and diversification of angiosperms; speciation and mechanisms of diversification - each section corresponding to a major area in plant evolution. In each case, data from molecular, morphological, and paleontological approaches are presented, backed by recent progress and new...
