iUniverse, United States, 2009. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Do you ever feel you can't achieve your dreams? Do you feel like you do the work but nothing is happening? Do you wonder what is missing? The author felt it too and his life changed for the better when he began practicing the four basic principles to success described in this book. Discover how you can find the opportunities that never seem to come your way. It is not magic; it is just a change of focus that gives you the power to take control of your life. We cause most of the difficulties that we experience in our lives by wishing for things that we don't really want or need. We make the effort, we struggle, and still we don't seem to get anywhere. Success is yours to have and it is yours to shape. Success is a uniquely individual achievement and a state of being, not a result. Success is possible for everybody but each one of us must first find it within ourselves by determining what we really want out of life. Break free from your limiting desires and expectations and start the exploration that will take you to where you are really meant to be.
