A disastrous collision of both natural and man-made events is about to seriously alter societal norms as we know them. No, the world is not coming to an end; life on the planet will continue. But modern mans way of living for the past 2000 years is drawing to a quick and cataclysmic conclusion. Many around the globe will not survive the catastrophe. And surely many will be traumatically swept up in the unprecedented events. Many have long been forewarned however. Those who stand to gain most from these warnings have been heeding the calls of a young Maryland preacher, who has been delivering some most dire forecasts since he was little more than a toddler. A tumultuous mix is about to hit the proverbial fan. And for those who have for too long ignored the vivid signs, recess is just about over. This item ships from La Vergne, TN. Paperback.
