

Antennas and the Associated Time Domain Range for the Measurement of Impulsive Fields (Classic Reprint) (Paperback)

By Robert a Lawton

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Antennas and the Associated Time Domain Range for the Measurement of Impulsive Fields National Bureau of Standards Boulder, Colorado, 80303 u.s.a. This report describes the construction and evaluation of a tem horn antenna designed at nbs to be used as a transfer standard to generate and measure impulsive electromagnetic fields. Our purpose in the evaluation was to analyze the different electrical field generation and measurement techniques thoroughly enough to determine the major sources of error and establish a standard of impulsive field strength having a well established statement of accuracy. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
