Red, life-giving, and one of the greatest enigmas of science, blood becomes the subject of interest in this thought provoking study of the Bible. Fundamentally, BLOOD is the most important natural element in Christendom because of the Sacrifice of Jesus, His Blood and Its connection to Christian salvation. Drawing from divine inspiration, the etymology (study) of classic Hebrew and Greek words from the Bible and other fields of study, this book attempts to answer two basic questions: What is the Blood of Jesus and how can It actually save us The theoretical answer lies in the title and inside the pages of this book. By detailing connections between Jesus turning water into wine, God allowing Moses to turn the waters of Egypt into blood, Noahs ark, the Ark of the Covenant, the Rapture and other Biblical occurrences, the author invites readers to join him in a dimensional Crime Scene Investigation at the foot of that Cross to determine the true nature of Jesus Blood and the mysterious way It ties together all of these epic events.
