## GLOBAL FINANCIAL SUPER HEATING: 2014 (PAPERBACK)

Createspace, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.A dyslexic autodidact s overview of most religions (afraid to live, afraid to die), resources, governments, their money, and the end of all life on earth if man continues to pretend that all is OK. The advantage of being an autodidact is that I am not encumbered with the knowledge of things taught that one can or cannot do. It s all open to me and I share it with you, the reader. With religion s blessings, the unregulated human population explosion is devastating this small planet and continues to leave only death and destruction as our legacies for future inhabitants. Lies from governments and religions and how the BIG 3 controlled by the 85, are destroying the earth in pursuit of god/notes while the rest of us remain seemingly powerless. Right or wrong, are you prepared for what is to come?.
