### **Reviews**

*The ideal publication i at any time go through. It is actually rally fascinating throgh reading through time. I am pleased to inform you that this is actually the greatest book i have got read through during my individual existence and might be he best book for at any time.  
(Alexandre Cruickshank)*

## QUANTUM PHYSICS IN MINUTES

Quercus Mai 2017, 2017. Taschenbuch. Condition: Neu. Neuware - The fastest way to understanding quantum physics - learn about how our universe works, in minutes. Quantum physics is the most fundamental, but also the most bewildering, of sciences. Allowing for simultaneously dead-and-alive cats, teleportation, antimatter and parallel universes, it also underpins all digital technology and even life itself. But at last it's possible through this clear and compact book, illuminated with 200 simple diagrams for anyone to understand the strange and beautiful subatomic world, and hence the nature of reality itself. Contents include: inside the atom, the Higgs boson, Heisenberg's uncertainty principle, Schrödinger's cat, relativity, dark energy and matter, black holes, God playing dice, the Theory of Everything, the birth and fate of the Universe, string theory, quantum computing, superconductivity, quantum biology and consciousness, and much more. 416 pp. Englisch.
