LENTIL UNDERGROUND: RENEGADE FARMERS AND THE FUTURE OF FOOD IN AMERICA

Penguin Group USA, 2015. Hardcover. Condition: New. 1. A protégé of Michael Pollan tells the remarkable story of an unheralded group of Montana farmers who have defied corporate agribusiness by launching a unique sustainable food movement. Forty years ago, corporate agribusiness launched a campaign to push small grain farmers to modernize or perish, or as the Nixon administration's secretary of agriculture, Earl Butz, put it: 'Get big or get out.' But twenty-seven-year-old David Oien decided to take a stand. When he dropped out of grad school to return to his family's 280-acre farm, Oien became the first in his conservative Montana country to seed his fields with a radically different crop: organic lentils. A cheap, healthy source of protein, rich in fiber, folate, vitamin B1, and amino acids, lentils are drought-tolerant and don't require irrigation. And unlike the chemically dependent grains American farmers had been told to grow, lentils make their own fertilizer and withstand variable climate conditions, so their farmers aren't beholden to industrial methods. Today, David Oien leads a thriving movement of organic farmers who work with heirloom seeds and biologically diverse farm systems. Under the brand name Timeless Natural Food, this 'lentil ****' has grown into a million-dollar enterprise that sells to hundreds of independent natural food stores and a host of renowned restaurants. Set in the farm belt of red-state America, far from the farmers' markets and haute cuisine of coastal cities, Lentil Underground confronts the global food system in one of the little-known rural communities that will determine its fate. From the heart of Big Sky Country comes this inspiring story of a handful of colourful pioneers who have successfully bucked the chemically based food chain and the entrenched power of agribusiness's 1 percent by stubbornly banding together. Unearthing the deep roots of this movement,...
