THE MATRIX OF TRUTH THE QUANTUM OF REALITY VOLUME 1

David E Olander. Paperback. Condition: New. 226 pages. Dimensions: 9.2in. x 6.1in. x 0.5in. The Matrix of Truth is a fascinating journey and study into the latest scientific and philosophic perspectives of our time. General relativity, quantum mechanics, cosmology, epistemology, determinism, and even wisdom are discussed from a non-theory, non-metaphysical approach. This revolutionary look into how humanity addresses absolute reality in a world struggling to survive, gives each reader a new understanding into the universal truths that support life. In many ways, The Matrix of Truth is a stunning commentary on a world that has embraced Enlightenment doctrines to the point of antithesis. What happens to society when meaning is turned to non-meaning and progressive ideals turn to entropic systems of exploitation, apathy, and misdirection. Global warming, the intensification of natural disasters, the exponential growth of infectious diseases, the expansion of pornography and sex trafficking, public shootings, and the rise of the entertainment industry all become synonymous with a society sinking into chaos. Each of us has an ultimate purpose in life, giving us meaning beyond the trajectories of evolution and science. It is the questions of life that drive us and inspire us; and it is our need to know that gives us hope. In this first-person narrative, David Olander opens the doors to previously unknown sources of knowledge in an attempt to reveal those truths that transcend Enlightened systems of belief. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
