Studies on the Development
of Glyceroosomal Drug
Delivery System

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Economic changes in pharmaceutical industry have led to a marked reduction in supply of new chemical entities. This combined with an increase in expiration of patents and tighter regulatory controls has lead many companies to rethink of existing product design. The growing trend to improve the efficacy of existing drug products to extend patent life, has allowed a greater understanding of newer formulation design. This book is designed to take a reader...
