Total master degree program completed with the best grade standing possible (overall GPA: 4.00) Thesis final defense passed with full credits earned. Total master degree program completed with the best grade standing possible (overall GPA: 4.00) , abstract: This thesis presents a research project entitled A Hypothetical Enhanced Renewable Energy Utilization (EREU) Model for Electricity Generation in Thailand . This research is motivated by Thailand s rapidly increasing electricity consumption caused by the country s long-standing above-average economic growth. Consequently, the rising electricity demand can only be satisfied by continuously growing electricity imports and thus creating a significant burden to Thailand s national budget. Further-more, Thailand is heavily dependent on natural gas reserves for electricity generation, however, these are expected to be depleted within only three decades and global price levels...
