Globalization and Change: The Transformation of Global Capitalism explores the origins, development, and transformation of globalization from a critical and historical perspective. Berch Berberoglu brings together eight essays authored by prominent sociological scientists from across the nation that examine the dynamics of globalization through an analysis of class relations and class struggles that define the contemporary global political economy. By undertaking a careful examination of the contradictions inherent in capitalist globalization, this book provides a thorough understanding of the issues behind the global capitalist economy and the struggle against globalization, while at the same time offering a viable solution to the growing exploitation of labor throughout the world.
