Symbolic and Algebraic Computation

By E. W. Ng

Springer Jun 1979, 1979. Taschenbuch. Book Condition: Neu. 235x155x30 mm. This item is printed on demand - Print on Demand Titel. Neuware - A criterion for detecting unnecessary reductions in the construction of Gröbner-bases.- Unification of commutative terms.- Canonicality in rule systems.- The application of symbolic algebra to physics A case of creeping flow.- Progress towards a solution of the equivalence problem in general relativity.- Symbol calculus by symbolic computation and semi-classical expansions.- An algorithm for the analytic evaluation of a class of integrals.- Fast computation of the rational hermite interpolant and solving toeplitz systems of equations via the extended Euclidean algorithm.- Approximate algorithms to derive exact solutions to systems of linear equations.- New recursive minor expansion algorithms, a presentation in a comparative context.- Systems of algebraic equations.- On the van der waerden criterion for the group of an equation.- Some computations related to torsion points on elliptic curves over number fields.- The computerisation of algebraic geometry.- Algebraic extensions of arbitrary integral domains.- On unit computation in real quadratic fields.- An algebraic form of a solution of a system of linear differential equations with constant coefficients.- Substitution methods for the automatic symbolic solution of differential equations of first order and...

Reviews

Thorough information! Its this kind of very good read. It is writter in basic words and not hard to understand. You wont feel monotony at anytime of your respective time (that's what catalogues are for regarding should you question me).
-- Roel Bogisich Sr.

This pdf is definitely not straightforward to get started on studying but extremely exciting to see. It generally does not charge an excessive amount of. Your lifestyle period is going to be convert once you full looking over this publication.
-- Elliott Rempel MD
